## 3rd Grand INSEP Network Conference

*On June 3 and 4, INSEP and RGI will be organizing the 3rd Grand INSEP Network Conference at INSEP. This event takes place every post-Olympic year: following the Paris 2024 Olympic Games, it's time to assess and analyze in order to build the RGI's 2025-2030 roadmap.*

📅 ADD TO THE CALENDAR

The aim of the 3rd Grand INSEP Network Conference will be to review the RGI's actions and achievements over the last Olympiad, to assess the results and to consider the prospects for further optimizing the support provided to elite athletes.

Following the success of the Paris 2024 Olympic Games, these 3rd Conference will set the course for the grand INSEP network: the new pillars of the 2025-2028 label, strengthened work with federations, collaborations with all players in the sports ecosystem (Ministry of Sports, National Sports Agency, French National Olympic and Sports Committee, French Paralympic and Sports Committee, etc.).

On the eve of new milestones that are as important as they are exciting (Milan-Cortina 2026, Los Angeles 2028, The French Alps 2030), INSEP and the RGI centers continue to pursue their ambition to federate, mobilize and work in synergy with a whole range of networks (national, regional and federal) for the benefit of the performance of the French Olympic and Paralympic teams.
