

TEAM INSEP

Back to INSEP 2024

A season isn't officially launched at INSEP until our traditional "Back To INSEP" event has taken place. This was the case on Tuesday October 15, to the delight of our elite athletes, who were able to celebrate and receive their new equipment from our top partner adidas!

Published on 16 October 2024

The event was planned. A wave of khaki green tracksuits, the color of this new Team Insep adidas collection, flooded in to take part in this ever-popular event specially designed for our boarders.

Welcomed by the mentor of this 2024-2025 season, Olympic and world boxing champion Estelle Mossely, several volunteers from each INSEP "pôle France" were able (each in turn) to take possession of the "catwalk" in front of a warmed-up audience and put on a show of their choice to present their discipline. And it's clear that our Class of 2025 showed great enthusiasm and originality!

After the announcement of the voting results, which saw the rowing squad win ahead of wrestling and modern pentathlon, the whole INSEP team was able to try out the various activities on offer (dental strass stand, temporary tattoo stand, 360 photo, branding of their endowment, etc.) before setting the dancefloor alight to the rhythm of the DJ's beats!

Once again, it was a great success and a very friendly moment which enabled all the athletes to meet, talk, challenge each other (nicely) and reinforce the feeling of belonging, so dear to the institute.

Take a look at our behind-the-scenes pictures of the event:
