## Festival tour for the Champion(s) series

---

*From April 3 to 6, the Champion(s) series co-produced by INSEP and Mediawan, with the participation of France TV, had its moments of glory!*

*Published on 9 April 2024*

First of all, season 3 of Champion(s) was one of the series nominated for the Deauville Sport Doc Festival. For its first edition, this festival of sports documentaries sponsored by Laura Flessel, crowned Champion(s) with first prize in the documentary series category !

Champion(s) then went on to enjoy great success in Cannes. On the occasion of CANNESERIES, the international series festival and little brother of the Cannes Film Festival, excerpts from the latest season were shown to over 300 schoolchildren in the presence of director Florent Bodin, as well as our Insepiens Erwan Konaté, Sara Balzer and Ladjî Doucouré, major protagonists of the documentary.

This was an opportunity for them to walk the famous steps and pink carpet of CANNESERIES, but also to speak at conferences, meet various media and share their experience with local clubs, especially the Athlétique Club de Cannes.

The first 3 seasons of Champion(s) are available on [France TV Slash](https://www.france.tv/slash/), while the final part follows the protagonists on their adventure to the Games!
