

Secondary education

INSEP's dedicated school, which, under an agreement with Académie de Créteil, provides on-site learning for pupils from their 3rd year to their final year (the programme also includes a professional baccalaureate in business and a BTS diploma in commercial unit management); the timeslots for classes (07:45-10:45 and 14:15-16:15, supervised homework sessions on Wednesdays, study sessions in the evenings) are kept free, consulting with the hub leaders. The possibilities for retrieving course materials following absences (sports competitions, courses) are continuously being improved, thanks in particular to online platforms and open distance learning.
